Geography Unit B: Test Review

Our test is on: Tuesday, January 27, 2014.

Unit Overview:

Big Question: What factors influence the quality of life in different countries, and how do we address inequality?

This unit, we examined the different factors (social, environmental, economic) that influence quality of life, and discussed the impacts of inequality. We also looking at types of economies and industries, and looked at population pyramids and scatter plots.
